

SIAT S.p.A. aims to become the leading leader in the production of steel drawn wires, cold rolled plates and welding consumables under the Pittarc.

The Management of SIAT S.p.A., considers as a determining factor for competitiveness, both on the domestic and international market, the ability to provide products and services consistent with customer expectations in order to increase their satisfaction.

To this end, the Management has committed to a project of continuous improvement whose targets will have to be pursued taking into account the following aspects:

- a) the prompt satisfaction of customer requests and the applicable mandatory requirements;
- b) the increase of personnel skills;
- c) the pursuit of plant engineering excellence;
- d) the pursuit of plant engineering excellence;
- e) the optimization of the integration into the production processes of the raw material supplied by the subsidiaries of the Pittini Group;
- f) continuous improvement of the Quality Management System;
- g) the application of risk-based thinking to maximize the degree of achievement of these objectives.

SIAT S.p.A. communicates, or discloses, this Policy to all persons who work and collaborate for it or on its behalf.

All employees and collaborators of SIAT S.p.A. will be an active part in the implementation of this Quality Policy, respecting its principles in carrying out of their duties. Specific awareness and training programs will be launched to extend and strengthen consequent professional behaviors and practices.

The Management of SIAT S.p.A. considers that the UNI EN ISO 9001 standard is the most effective standard for implementing and maintaining a Quality Management System suitable for the internal and external context in which it operates.

SIAT S.p.A. riconosce nel Sistema Gestione per la Qualità lo strumento per raggiungere i suoi obiettivi e all'Ufficio Qualità i poteri e le competenze necessari per attuarlo.

SIAT S.p.A. recognizes in the Quality Management System, the tool to achieve its objectives, and to the Quality Office the powers and skills necessary to implement it.

The Management
